Dear Parents/Guardians,

The transition to high school is bittersweet. Students may feel anxious and excited to be entering a new school with new academic challenges. For parents, this marks the last stage of your child's education before they enter post-secondary life. By preparing your student and yourself for the transition into ninth grade, you will see a successful first year of high school.

Enclosed are a few helpful academic materials to aid you in transitioning you and your student into high school. We hope you find this information useful and can easily implement it into your family's routine. Remember, you can always contact your student's teachers, guidance counselor or principal if you have any questions or concerns.

Additionally, I would like to encourage you to become actively involved with your student's education and school. As a parent, you play a large part in your student's academic success and your involvement is essential. Ninth grade is a great time to begin involvement as your child has new teachers, friends and interests. Please contact me if you would like more information on how to get involved at Spalding High School.

Thank you,

Julia Fletcher
